**Wastewater System Improvements**  
WCI File: 12-200-519-01

Sealed Bids for the construction of the Wastewater System Improvements will be received by OWNER, at the office of the City Clerk, City of Galva; 208 S. Main Street; Galva, KS 67443, until 1:30 PM local time on July 30, 2019, at which time the Bids received will be publicly opened and read. Bids received after this time will not be accepted.

The Project is generally described as follows:

General: Work includes furnishing all the labor, materials, and equipment for the improvements at the wastewater lagoon facility, forcemain piping, and wastewater lift station. The general overall project improvements include construction staking; mobilization; erosion control; 35.5 acres of grass seeding; corrosion resistant liners, telemetry, and all other incidental and appurtenant work required to complete the improvements as shown and specified.

Wastewater Lagoon Facility Improvements: Work includes furnishing all the labor, materials, and equipment for the wastewater lagoon facility improvements. The improvements include approximately 103,042 cubic yards of common excavation, approximately 99,478 cubic yards of earthwork compaction, 2,199 linear feet of 12-inch PVC lagoon piping, 255 linear feet of 12-inch DIP lagoon piping, 2,170 square yards of gravel surfacing, one influent structure, 4 transfer structures, 5 distribution manholes, 9,721 square yards of rock riprap slope erosion protection on Cells 1, 2 and 3, 4,477 linear feet of woven wire fencing, trenching; backfilling; over excavation; compaction; concrete work; site grading; gravel surfacing and all other incidental and appurtenant work required to complete the improvements as shown and specified.

Wastewater Force Main Improvements: Work includes furnishing all the labor, materials, and equipment for the wastewater force main improvements. The improvements include 2,310 linear feet of 6-inch PVC sanitary force main and all other incidental and appurtenant work required to complete the improvements as shown and specified.

Wastewater Lift Station Improvements: Work includes furnishing all the labor, materials, and equipment for construction of the main wastewater lift station and demolition of the existing wastewater treatment plant. The improvements include installing a permanent backup generator for the new lift station; installation of a new submersible packaged lift station (Gorman Rupp) and concrete wet well; modification of the influent box, metering manhole, 12-inch PVC gravity sewer piping, site earthwork, electrical site work; piping; by-pass pumping, and all other incidental and appurtenant work.

Alternate No. 1: Work includes furnishing all the labor, materials, and equipment for installing 9,721 square yards concrete slope erosion protection on the sides of the primary treatment lagoon cells, therefore deleting riprap slope erosion protection.

Bidding Documents in electronic Adobe Portable Document Format (pdf) can be viewed or downloaded through the online Plan Room at <http://www.wilsonco.com/plan-room> at no charge. Printed copies of the proposed Bidding Documents may be obtained from the Wilson & Company, Inc. Engineers & Architects upon receipt of a non-refundable deposit in the amount of \$150.00 for each set, not including tax and shipping costs. Contractors, subcontractors, suppliers, etc. must register or log-in to view and/or download Bidding Documents. Complete

sets of Bidding Documents must be used in preparing Bids; neither Owner nor Engineer assumes any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.
